 **SPECIAL NOTE:** A cardboard template is needed to properly manufacture segment top doors. Please include one with your order and indicate springline measurement.

NOTE: Prices for curved and segment doors are based on 37" x 86" maximum opening and single radius. Option availabilities may change on some door styles when door is ordered under 35-1/2" x 79" (standard size). All doors are scaled to standard size.

Prices listed include: standard push button latch, heavy duty air closer, safety chain and installation screws. Please refer to pages at the end of door section for special hardware, oversize charges, special allowances, options and accessories.

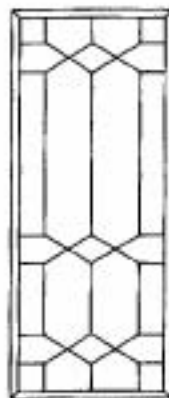

DECORATIVE GLASS PANELS (FOR STORM DOORS)

Decorative glass panels are available in a variety of patterns to let you dress up any entryway. The "leaded" glass panels, called **Art Glass**, are made by applying a genuine lead bead to both sides of a single sheet of tempered glass. **V-groove** glass is a relatively new process that simulates the elegance of individual lites of fine cut beveled glass, in a single sheet of 3/16" tempered glass. The standard patterns are illustrated below.

ONE LITE STYLES

Floral
Art Glass

Gothic
Art Glass

Traditional
Art Glass

Deco
Art Glass

Art Glass

All prices listed above are for the decorative glass option when purchased with a Winstrom storm door. These decorative lites may be purchased separately, please call for a quotation.

*Royal and Retro V-groove glass is inventoried for use in stock-sized (36 x 80 to 81) Ultra-View doors and Bolted-Kore One Lite doors 36 wide and 82 or taller openings.
